WE OFFER INDUSTRIAL SOLUTIONS THAT ARE RELIABLE, EFFICIENT, & SAFE

*B* BALAJI CHEM SOLUTIONS

# About Us

Balaji Chem solutions started almost two decades ago with a pragmatic vision to offer long-established and experimental solutions to advance a sustainable product in India.

Our main aim is to create such an environment with a fusion of chemistry to meet the needs of local industry.

Our product applications are made in such a way that it improves the customer's product quality. Our main focus is on paper, pulp, and water treatment.

We Works on simple aim:-

- Surging profit by using the best raw material, minimization of cost in operation, and handling the whole process perfectly
- The operations of various paper related products increases profit with the focus of strength improvement chemicals for paper

# Applications

To develop the Pulp & Paper industry with environment friendly processes and manufacturing of paper & related products by offering quality chemicals cultivated from eco friendly methods and ingredients.

- Wet Strength Resin
- Stickies Control Program
- Yankee Coating
- Yankee release agent
- Softeners
- Enzymes
- Internal & Surface sizing
- Retention and Drainage
- Dry Strength Resin
- Microbiological & Deposit control program
- Felt Cleaning & conditional Program
- Paper machine deformer and de-aeration
- Modified & Native Starch Blends

# Tissue

In most parts of the world, a day without tissue is unthinkable. Bathroom tissue, paper towels, facial tissue, paper handkerchiefs and table napkins all play a critical role in hygiene, cleanliness and comfort. Tissue paper products function marvelously to promote hygiene by helping to prevent the spread of germs, bacteria, viruses and disease.

Its best quality is softness which easily absorbs everything from water to oil in an effective way. Nowadays, with the advent of technology, a tissue has become the gist of our lives. The consumption element has immense softness and touches well at feel as well as strength in its structure.

At Balaji Chem solutions, we are helping customers to be hygienic and use it for home needs which can be used anytime and anywhere. Basic and best features of these tissues are: –

- Convenient
- Sustainable
- User-friendly
- Safe to use

The products which Balaji Chem solutions offer are unique and help the tissue to be long-lasting by MG coating chemicals for the machine, tissue chemicals.

Balaji solution is helping companies to make tissues with world-class products which we are offering them in affordable costs. Indeed, these products will enhance productivity and maintain the standard quality which no other product will do.

# Products

Balaji solution is helping companies to make tissues with world-class products which we are offering them in affordable costs. Indeed, these products will enhance productivity and maintain the standard quality which no other product will do

Products	Characteristics	Application
BANI RL 100	Proprietary Composition	Yankee Release agent
BANI PIC	Proprietary Composition	Yankee Dryer Coating Agent
BROSOFT	Softener	Tissue softener
BANISTRENGTH	Dry Strength Resin	Increase Dry Strength Properties
BANISTRENGTH 6100	Wet Strength Resin	Increase Wet Strength Properties
BAY FLOC	Retention & formation	Improve Retention & formation
ENZYMES	Enzyme	Increase Strength to save refine energy
BIOCIDES	Biocide	prevent slime and microbiological deposits

# Why Choose Us

## ● Establishing industry standards

The secret of our success is no secret at all. The basic ingredients utilized by us are very well known by everyone which is inclusive of hard work, experience, and intimate knowledge of the market. We are a pioneer in offering qualitative service and functioning;

## ● Bespoke Solutions

In the age of reasonable cost and side by side adopting the mantra of go green, we are the best in the market. Our ethics have become the thought process of our well-experienced and young professionals in extending bespoke solutions to the ultimate height.

## ● Our focus is our hallmark

We ensure the satisfaction of the clients through our in-depth analysis, and we create such a panacea in affordable price adopting latest the technology and knowledge. Defining effective chemical management modules

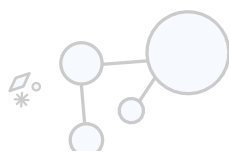

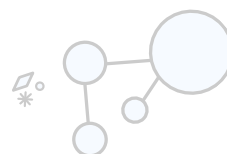

## ● Our Specialization

- Surging profit by using the best raw material, minimization of cost in operation, and handling the whole process perfectly
- The operations of various paper related products increases profit with the focus of strength improvement chemicals for paper

## ● Outsourcing Consultancy

With the advent of technology, we have seen tremendous growth in achieving a milestone in home-grown raw material; but, still there are innumerable materials which need to be imported from various destinations.

## Know Us

- **26 Years of Experience**  
Serving since a long time with effectiveness in the field
- **51 Awards Achieved**  
Industrial experiences of 21st Century that drives Innovations
- **150 Workers Employed**  
Balaji chem solutions provided lots of employments
- **714 Projects Completed**  
Perfectly delivered project to factories
